Place: Kochi, Kerala

Professional Summary

Backend-focused Software Developer with 4 years of experience specializing in Node.js, NestJS, and Express.js, building scalable APIs and microservices. Skilled in database design, system performance optimization, and application architecture. Experienced in client communication, project coordination, and mentoring junior developers within startup and enterprise environments. Also familiar with frontend development using AngularJS & React JS for creating responsive interfaces and integrating APIs.

Experience

Software Engineer - ISPG Technologies

December 2025 - April 2026 Kochi, Kerala

Key Contributions :

- Collaborated with cross-functional teams (design, QA, product) to deliver features
- Contributed to the development and enhancement of core product feature
- Participated in code reviews and implemented feedback to improve code quality and maintainability
- Developed and maintained modules using Node.js, React.js.
- Collaborated with senior engineers to design and implement solutions
- Actively participated in Agile ceremonies such as daily stand-ups, sprint planning, and retrospectives

Senior Software Developer - Techware Lab

January 2022 - June 2025 Kochi, Kerala

Key Contributions :

- Architected and implemented scalable RESTful and GraphQL APIs utilizing Node.js, Express.js, and NestJS.
- Developed backend services with seamless integration of PostgreSQL, MySQL, and MongoDB databases.
- Enhanced system performance and scalability through strategic use of Redis caching and API gateway solutions
- Write modular, testable, and maintainable code following SOLID principles.

- Collaborated effectively with frontend teams using React, Next.js, and Angular for cohesive product delivery.
- Applied MVC architecture and design patterns within agile processes to deliver reliable software products.
- Developed Robust APIs for Microservices architecture based SaaS Projects
- Led a team of junior developers by assigning tasks, reviewing code, and providing mentorship to ensure high-quality deliverables.
- Served as a member of the POSH (Prevention of Sexual Harassment) Committee, ensuring workplace compliance and fostering a safe, inclusive environment.
- Conducted technical interviews and evaluated candidates, contributing to building a high-performing development team.
- Trained and mentored an intern, providing guidance on backend development best practices and project workflows.
- Collaborate in agile ceremonies, including sprint planning and estimation.
- Implement message-based communication using Kafka, RabbitMQ, or Redis Streams.

Jr. Project Manager - Convolve Technologies

Jul 2020- November 2021 Kochi, Kerala

Key Contributions :

- Managed software development projects with foreign clients
- Sprint planning
- Project coordination
- Client Interaction

Projects

Taxi Booking Mobile Application

- Developed **GraphQL** APIs for the taxi booking application and Its Admin panel using **Express JS** Framework
- Managed data using **PostgreSQL**
- Used **Redis** for Caching

Tech Stack : Node JS, Express JS, PostgreSQL, Sequelize, Redis

Auto Parts Inventory Website

- Developed a **responsive front-end** using **AngularJS** to deliver an intuitive user interface
- **Translated Figma designs** into web pages using **HTML5, CSS3, and Bootstrap**.
- **Integrated GraphQL APIs** to fetch and display dynamic data efficiently on the front end.

SaaS based Doctor Appointment Booking System

- Developed **GraphQL** APIs for **Microservice** based **SaaS** Application
- Managed data using **Mongo DB**
- Coordinated with front end developers for API integration and **debugging**

Tech Stack : Node JS, Nest JS, Typescript, Mongoose JS, MongoDB, GraphQL, Redis

SaaS based Learning management system

- Developed **GraphQL** APIs for **Microservice** based **SaaS** Application
- Integrated **Google Calendar API** for custom event/ reminder creation
- Integrated RazorPay **Payment gateway**
- Implemented **Role based access control** using **Nest JS**
- Managed data using **Mongo DB**

Tech Stack : Node JS, Typescript, Mongoose JS, MongoDB, GraphQL, Redis, OAuth

Email Delivery & API Provider Application

- Designed Database using MySQL Workbench
- Developed **REST** APIs **Node JS** and **Nest JS**
- Applied REST Architectural constraints and Principles
- Setup entire Application structure
- Implemented **RabbitMQ** for message queuing
- Developed and Published **NPM** Package for Email API

Tech Stack : Node JS, Nest JS, RabbitMQ, PostgreSQL, Sequelize

Children's Learning Assistant Application

- Designed Database using MySQL Workbench
- Implemented **JWT Authentication**
- Managed data using **PostgreSQL**
- Implemented specific features like subscription management, Profile management
- Designed and developed entire Achievements module with logic for tracking reading activity
- Made use of reading tracking data to develop challenge evaluation and badge allocation features.
- Implemented **security best practices** for authentication

Tech Stack: Node JS, Nest JS, PostgreSQL, Sequelize, Passport JS, Typescript

Skills

- | | |
|--|--|
| ● Backend: Node JS, Typescript, Javascript | ● ORMs/ODMS: Sequelize, Mongoose |
| ● Frontend: HTML, CSS, Angular JS, React JS | ● API: REST , GraphQL, |
| ● Databases: PostgreSQL, MongoDB | ● Messaging/Job Queues: Rabbit MQ, Kafka |
| ● Tools: Git, GitHub, Linux (Ubuntu), VS Code, Clickup, Microsoft teams, JIRA | ● Containerization: Docker |
| ● Frameworks: Express JS, Nest JS, Jest | ● Cloud: GCP (Firebase, IAM, API Integration), AWS (Basic) |
| | ● API Security: JWT, Helmet js, OAuth, Strong understanding of OSI architecture |

- **API Tools:** Swagger,Postman,GraphQL Altair
- **OS :** Ubuntu Linux, Windows
- **A.I tools:** Cursor IDE, Chat GPT, Claude code
- **Performance:** Redis Caching,
- **Personal skills :** Team Player, Leadership skills,Good verbal and written communication, Active listening, Management skills, Proficient in English

Certifications

- **Certified Blockchain Associate** - Kerala Blockchain Academy
- **Certified Hyperledger Developer** - Kerala Blockchain Academy
- **Network security & Database vulnerabilities** - IBM
- **Cybersecurity Foundation** - Palo Alto Networks Academy

Education

- **B.Tech** in ECE, ASIET Kalady, Ernakulam,Kerala - Regular *2014 - 2018*
